Notes:

(1) The number of employers or organizations acting in the role of apprentice-sponsor. In August 2015, ITA has improved its methodology to track youth participating in trades training programs and as a result, those sponsors who had been attached to the youth ACE IT program are no longer counted in this measure. In addition, ITA's activities to encourage apprentice completion have decreased the sponsor count as some employers are no longer sponsors once their apprentices become certified.

(2) Since 2012/13, Sentis Market Research has been commissioned by ITA to conduct the survey for this performance measure. Data is collected by combined telephone and online surveys. Industry best practices and quality assurance methodologies are employed throughout the process.

(3) This measures the percentage of individuals who successfully complete a Foundation program and become an apprentice registered with the ITA 12 months from their Foundation credential achievement date. This includes results for ITA youth program participants from the Secondary School Apprenticeship (SSA) and Accelerated Credit Enrolment in Industry Training (ACE IT) programs. ITA will begin separate measuring of continuation rates from youth programs to apprenticeship, which will be reported through a separate Youth report.

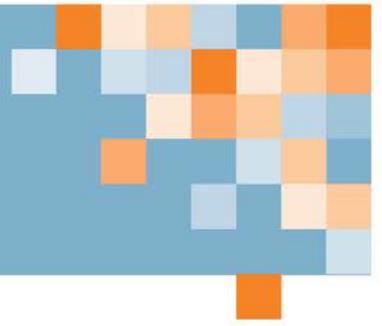

(4) Work to harmonize Phase 1 Red Seal trades was significantly completed in 2015/16 in most jurisdictions. Implementation is scheduled to begin September 2016 as directed by the Forum of Labour Market Ministers.

(5) High Opportunity Trades (with Foundation programs) are: Carpenters; Electricians (except industrial and power system); Heavy Equipment Operators (except cranes); Construction Millwrights and Industrial Mechanics; Welders and related machine operators; Heavy Duty Equipment Mechanics; Plumbers; Bakers; Machinists and Machining and Tooling Inspectors; Industrial Electricians; Sheet Metal Workers; Steamfitters-Pipefitters; and Sprinkler System Installers.

(6) In August 2015, ITA has improved its methodology to track youth participating in trades training programs and as a result, participants in the youth ACE IT program will no longer register as youth apprenticeships. Prior year results have not been restated.

(7) A weighted average of both apprenticeship and foundation program post-secondary seat utilization, reflecting percent of ITA-funded seats filled by registered participants.

(8) Completion rate is a measure of the number of apprentices who have completed their program and obtained their Certificate of Qualification within 6 years of registration. The completion rate is calculated quarterly and then reported on a cumulative basis throughout the year. In the 2009/10 fiscal year, ITA implemented new software that enabled better tracking of apprentices from the modular welding program and cohorts from that program are now included in completion rate tracking.

(1) ITA program revisions to Welder C (January 2014) and Hairstylist (April 2016), now categorize registrations as Foundation participants. ITA has improved its methodology (September 2015) to track youth participating in trades training programs and as a result, participants in the youth ACE IT program are no longer included in the Apprentice registrations count.

(2) Successful completers of Foundation Programs, from all designated Foundation Program providers, are issued a Certificate of Completion and receive credit towards an apprenticeship.
