

Issued: September 29, 2016

Program: Piledriver and Bridgeworker

To: ITA Training Providers
Articulation Chair
System Liaison Person
School Districts

Subject: **Piledriver and Bridgeworker Program Outline**

OPSN No.: **OPSN 2016 015**

Effective Date: April 1, 2017

Summary of Change: Please be advised that a new Piledriver and Bridgeworker Program Profile and Program Outline has been posted to the Industry Training Authority (ITA) website.

Rationale: Changes to the Piledriver and Bridgeworker Program Profile and Program Outline were made as a result of changes made to Carpenter Level 2 during the Carpenter Harmonization process.

Details: Currently, Piledriver and Bridgeworker apprentices take Carpenter Level 2. When the Carpenter trade went through the Harmonization process, content from Carpenter Level 2 was redistributed through the other levels. Carpenter Level 2 was subsequently no longer an appropriate fit for the Piledriver and Bridgeworker program.

A Piledriver and Bridgeworker Program Review was conducted in June 2016 to develop a Piledriver and Bridgeworker-specific Level 2. Changes to the Piledriver and Bridgeworker Program Profile were then made to accommodate those changes.

Attachments: A competency migration summary chart detailing the changes made to the Piledriver and Bridgeworker program.
Piledriver and Bridgeworker Occupational Analysis Chart with the changes reflected.
Piledriver and Bridgeworker Program Profile.
