

Issued: December 1, 2016

Program: Lather (Wall and Ceiling Installer)

To: ITA Training Providers
Articulation Chair
System Liaison Person
School Districts

Subject: **Lather – Module A, B, C, D**
ITA Standardized Exams Deactivation

RE: **OPSN 2016 019**

Effective Date: Immediately

Summary: The standardized exams for Modules A, B, C and D of the Lather program are being deactivated effective immediately. There will be no requirement to write standardized ITA exams until further notice. Apprentices will still be required to successfully pass the IP exam at the end of their apprenticeship in order to obtain the Red Seal endorsement on their Certificate of Qualification.

Rationale: The Lather Program Outline is scheduled to be reviewed in early 2017. New exams will be implemented once the program standards for the Lather program are reviewed and updated in order to meet current industry needs.
