

SkilledTradesBC Program Recommended Education Comparison

SkilledTradesBC program profiles contain a recommended education section that lists the desired level of skill or knowledge that will contribute to success in the program. Over time BC's K-12 course curriculum goes through changes. As a result, some recommended courses listed in a program profile may be discontinued, combined with other courses, or split up into several courses. Below is a comparison of old recommended courses that appear in program profiles and their current equivalent.

For detailed information about BC secondary school courses please visit <https://curriculum.gov.bc.ca/>

Old BC Course Name	Equivalent Per Current BC Ministry of Education Curriculum
