- Rationale:** ITA has implemented Standardized Level Exams as part of an assessment strategy to ensure consistent outcomes at each program level for apprentices throughout BC.

## General Information

- Scheduling Exams:** Training providers are required to complete an ITA Exam Request Form six to eight weeks prior to the scheduled exam date. Training providers are encouraged to identify courses using the Session ID, to ensure the correct exam is scheduled. ITA will provide an invigilator for these exams. For more information, please see <https://www.itabc.ca/training-provider-resources>.
- Calculating Percentage Scores for ITA Level Exams:**
- Process**
- ITA administers the exam, records the mark in Direct Access (DA), and reports it to the training provider.
  - The training provider blends the in-school (80%) and SLE (20%) marks to produce a final mark for the level (or as indicated in the Assessment Guidelines).
  - The training provider reports the final, blended mark to ITA and records it in DA.
  - DA reports the final, blended mark to the apprentice as a single percentage score.
    - When the final mark is entered into DA, the system performs a reverse calculation using the SLE mark to determine the in-school mark.

- All three marks are stored in the apprentice's record, but only the final blended mark is reported on the ITA transcript.
- A blended mark of 70% or greater is required to pass the level.
