

## **Industrial Electrician**

## Inter-provincial examinations – Tasks and related number of questions

## Based on 2016 RSOS

A - PERFORMS COMMON OCCUPATIONAL SKILLS  Task 1 - Performs safety-related functions Task 2 - Uses tools and equipment Task 3 - Organizes work Task 4 - Fabricates and installs support components Task 5 - Organizes work Task 5 - Commissions and decommissions electrical systems Task 6 - Uses communication and mentoring techniques  B - INSTALLS AND MAINTAINS GENERATING, DISTRIBUTION AND SERVICE SYSTEMS  Task 7 - Installs and maintains consumer/supply services and metering equipment Task 8 - Uses communication and mentoring techniques  Task 9 - Installs and maintains protection devices Task 9 - Installs and maintains protection devices Task 10 - Installs and maintains protection devices Task 11 - Installs and maintains protection devices Task 11 - Installs and maintains protection devices Task 13 - Installs and maintains protection devices Task 14 - Installs and maintains protection devices Task 15 - Installs and maintains protection devices Task 16 - Installs and maintains protection devices Task 17 - Installs and maintains protection devices Task 18 - Installs and maintains protection devices Task 18 - Installs and maintains power generating systems Task 12 - Installs and maintains power generating systems Task 14 - Installs and maintains protection devices Task 15 - Installs and maintains renewable energy enerating and storage systems Task 16 - Installs and maintains transformers  Task 16 - Installs and maintains transformers  Task 17 - Installs and maintains transformers  Task 18 - Installs and maintains transformers  Task 19 - Installs and maintains branch circuitry and devices Task 19 - Installs and maintains branch circuitry and devices Task 19 - Installs and maintains branch circuitry and devices Task 19 - Installs and maintains branch circuitry and devices Task 19 - Installs and maintains branch circuitry and devices Task 20 - Installs and maintains energency lighting systems Task 21 - Installs and maintains each orditro protection systems  Task 22 - Installs and maintains cathodic protection systems Task 2	Major Work Activity	Task	Number of
CCUPATIONAL SKILLS  Task 1 - Performs safety-related functions Task 2 - Uses tools and equipment Task 3 - Organizes work Task 3 - Organizes work Task 4 - Fabricates and installs support components Task 5 - Commissions and decommissions electrical systems Task 6 - Uses communication and mentoring techniques  B - INSTALLS AND MAINTAINS GENERATING, DISTRIBUTION AND SERVICE SYSTEMS  Task 7 - Installs and maintains consumer/supply services and metering equipment Task 8 - Installs and maintains protection devices Task 9 - Installs and maintains protection devices Task 10 - Installs and maintains protection devices Task 11 - Installs and maintains protection devices Task 12 - Installs and maintains protection devices Task 13 - Installs and maintains protection devices Task 14 - Installs and maintains protection devices Task 15 - Installs and maintains protection devices Task 14 - Installs and maintains protection devices Task 15 - Installs and maintains protection devices Task 14 - Installs and maintains protection devices Task 15 - Installs and maintains protection devices Task 16 - Installs and maintains protection devices Task 17 - Installs and maintains protection devices Task 18 - Installs and maintains protection devices Task 19 - Installs and maintains protection gystems Task 19 - Installs and maintains transformers  Task 19 - Installs and maintains transformers  Task 19 - Installs and maintains protection devices Task 19 - Installs and maintains evit and emergency lighting systems Task 21 - Installs and maintains evit and emergency lighting systems Task 21 - Installs and maintains evit and emergency lighting systems Task 21 - Installs and maintains evit and emergency lighting systems Task 21 - Installs and maintains evit and emergency lighting systems Task 21 - Installs and maintains evit and emergency lighting systems Task 22 - Installs and maintains evit and emergency lighting systems Task 23 - Installs and maintains signalling systems Task 24 - Installs and maintains signalling systems Task 25 - Installs an			Questions
Task 2 - Uses tools and equipment Task 3 - Organizes work Task 4 - Fabricates and installs support components Task 6 - Dominissions and decommissions electrical systems Task 6 - Commissions and decommissions electrical systems Task 6 - Uses communication and mentoring techniques  B - INSTALLS AND MAINTAINS GENERATING, DISTRIBUTION AND Task 7 - Installs and maintains consumer/supply services and metering equipment Task 9 - Installs and maintains protection devices Task 10 - Installs and maintains protection devices Task 11 - Installs and maintains protection devices Task 12 - Installs and maintains protection devices Task 13 - Installs and maintains protection devices Task 14 - Installs and maintains power conditioning systems Task 12 - Installs and maintains power perarting systems Task 13 - Installs and maintains power perarting systems Task 14 - Installs and maintains power perarting systems Task 14 - Installs and maintains power perarting systems Task 14 - Installs and maintains power perarting systems Task 14 - Installs and maintains power perarting systems Task 14 - Installs and maintains power perarting systems Task 15 - Installs and maintains power perarting systems Task 16 - Installs and maintains power perarting systems Task 17 - Installs and maintains power perarting systems Task 18 - Installs and maintains raceways, cables, conductors and enclosures Task 17 - Installs and maintains perarting perarting and storage systems Task 18 - Installs and maintains perarting perarting and controls Task 19 - Installs and maintains perarting perarting systems Task 19 - Installs and maintains perarting perarting perarting perarting and perarting perart		Tools A. Desferons and to related for all and	10
Task 3 - Organizes work Task 4 - Fabricates and installs support components Task 5 - Commissions and decommissions electrical systems Task 6 - Uses communication and mentoring techniques  Task 7 - Installs and maintains consumer/supply services and metering equipment Task 8 - Installs and maintains protection devices Task 9 - Installs and maintains protection devices Task 9 - Installs and maintains protection devices Task 11 - Installs and maintains protection devices Task 12 - Installs and maintains power conditioning systems Task 12 - Installs and maintains power generating systems Task 13 - Installs and maintains power generating systems Task 14 - Installs and maintains power generating systems Task 15 - Installs and maintains renewable energy generating and storage systems Task 15 - Installs and maintains renewable energy generating and storage systems Task 15 - Installs and maintains renewable energy generating and storage systems Task 16 - Installs and maintains renewable energy generating and storage systems Task 17 - Installs and maintains renewable energy generating and storage systems Task 18 - Installs and maintains renewable energy generating and storage systems Task 19 - Installs and maintains renewable, conductors and enclosures Task 19 - Installs and maintains renewable, conductors and enclosures Task 19 - Installs and maintains branch circuitry and devices Task 19 - Installs and maintains extra and energency lighting systems Task 20 - Installs and maintains extra and emergency lighting systems Task 21 - Installs and maintains extra and emergency lighting systems Task 22 - Installs and maintains motors starters and control devices Task 23 - Installs and maintains motors Task 24 - Installs and maintains motors starters and control devices Task 24 - Installs and maintains motors Task 25 - Installs and maintains proter starters			3
Task 4 - Fabricates and installs support components Task 5 - Commissions and decommissions electrical systems Task 6 - Uses communication and mentoring techniques  B - INSTALLS AND MAINTAINS GENERATING, DISTRIBUTION AND SERVICE SYSTEMS  Task 7 - Installs and maintains consumer/supply services and metering equipment Task 8 - Installs and maintains protection devices Task 10 - Installs and maintains protection devices Task 10 - Installs and maintains power conditioning systems Task 10 - Installs and maintains power conditioning systems Task 13 - Installs and maintains power generating systems Task 13 - Installs and maintains power generating systems Task 13 - Installs and maintains power generating systems Task 14 - Installs and maintains power generating and storage systems Task 15 - Installs and maintains transformers  C - INSTALLS AND MAINTAINS WIRING SYSTEMS  Task 16 - Installs and maintains transformers  Task 17 - Installs and maintains transformers  Task 18 - Installs and maintains transformers  Task 19 - Installs and maintains renewable energy generating and storage systems Task 17 - Installs and maintains renewable energy generating and storage systems Task 18 - Installs and maintains renewable energy generating and storage systems Task 19 - Installs and maintains transformers  Task 19 - Installs and maintains renewable, conductors and enclosures Task 17 - Installs and maintains reneways, cables, conductors and enclosures Task 19 - Installs and maintains branch circuitry and devices Task 19 - Installs and maintains branch circuitry and devices Task 19 - Installs and maintains reneways, cables, conductors and enclosures Task 19 - Installs and maintains branch circuitry and devices Task 19 - Installs and maintains branch circuitry and devices Task 19 - Installs and maintains branch circuitry and devices Task 19 - Installs and maintains praceways, cables, conductors and enclosures Task 19 - Installs and maintains praceways, cables, conductors and enclosures Task 19 - Installs and maintains praceways, cables,			2
Task 5 - Commissions and decommissions electrical systems Task 6 - Uses communication and mentoring techniques  B - INSTALLS AND MAINTAINS GENERATING, DISTRIBUTION AND SERVICE SYSTEMS  Task 7 - Installs and maintains consumer/supply services and metering equipment Task 9 - Installs and maintains protection devices Task 9 - Installs and maintains power conditioning systems Task 10 - Installs and maintains power generating systems Task 11 - Installs and maintains power generating systems Task 12 - Installs and maintains power generating systems Task 13 - Installs and maintains power generating and storage systems Task 14 - Installs and maintains power generating and storage systems Task 15 - Installs and maintains racewable energy generating and storage systems Task 15 - Installs and maintains transformers  C - INSTALLS AND MAINTAINS WIRING SYSTEMS  Task 16 - Installs and maintains raceways, cables, conductors and enclosures Task 18 - Installs and maintains beating, ventilation and air-conditioning (HVAC) electrical components Task 19 - Installs and maintains exit and emergency lighting systems Task 19 - Installs and maintains exit and emergency lighting systems Task 12 - Installs and maintains exit and emergency lighting systems Task 22 - Installs and maintains motor starters and control devices Task 23 - Installs and maintains motor starters and control devices Task 24 - Installs and maintains motor starters and control devices Task 25 - Installs and maintains motors  F - INSTALLS AND MAINTAINS Task 26 - Installs and maintains motors Task 27 - Installs and maintains motors  Task 29 - Installs and maintains input/output (I/O) devices Task 30 - Installs and maintains input/output (I/O) devices Task 30 - Installs and maintains pneumatic and nylifocing control systems Task 30 - Installs, programs and maintains automated control systems Task 30 - Installs, programs and maintains automated control systems Task 30 - Installs, programs and maintains automated control systems Task 30 - Installs and maintains pneumatic a			2
Task 6 - Uses communication and mentoring techniques 0  B - INSTALLS AND MAINTAINS GENERATING, DISTRIBUTION AND SERVICE SYSTEMS  Task 7 - Installs and maintains consumer/supply services and metering equipment Task 8 - Installs and maintains protection devices Task 9 - Installs and maintains protection devices Task 10 - Installs and maintains bouldage distribution systems Task 11 - Installs and maintains power conditioning systems Task 11 - Installs and maintains bonding, grounding and ground fault detection systems Task 13 - Installs and maintains power generating systems Task 13 - Installs and maintains protection devices Task 14 - Installs and maintains protection devices Task 15 - Installs and maintains renewable energy generating and storage systems Task 15 - Installs and maintains transformers  C - INSTALLS AND MAINTAINS WIRING SYSTEMS  Task 16 - Installs and maintains traceways, cables, conductors and enclosures Task 17 - Installs and maintains branch circuitry and devices Task 18 - Installs and maintains heating, ventilation and air-conditioning (HVAC) electrical components Task 19 - Installs and maintains electric heating systems and controls Task 21 - Installs and maintains evit and emergency lighting systems Task 21 - Installs and maintains cathodic protection systems  1 Task 22 - Installs and maintains motor starters and control devices Task 23 - Installs and maintains drives Task 25 - Installs and maintains motor starters and control devices Task 25 - Installs and maintains motors  F - INSTALLS AND MAINTAINS SIGNALLING AND COMMUNICATION SYSTEMS Task 26 - Installs and maintains signalling systems Task 27 - Installs and maintains building automation systems Task 29 - Installs and maintains protrotating equipment and associated controls Task 27 - Installs and maintains building automation systems Task 29 - Installs and maintains input/output (I/O) devices Task 31 - Installs and maintains protrotating equipment and control systems Task 31 - Installs and maintains input/output (I/O) devices Task 31 - Ins		Task 4 - Fabricates and Installs support components	1
B - INSTALLS AND MAINTAINS GENERATING, DISTRIBUTION AND SERVICE SYSTEMS  Task 7 - Installs and maintains consumer/supply services and metering equipment Task 8 - Installs and maintains protection devices Task 9 - Installs and maintains protection devices Task 9 - Installs and maintains power conditioning systems Task 11 - Installs and maintains power conditioning systems Task 12 - Installs and maintains power generating systems Task 13 - Installs and maintains prower generating systems Task 14 - Installs and maintains renewable energy generating and storage systems Task 13 - Installs and maintains renewable energy generating and storage systems Task 14 - Installs and maintains renewable energy generating and storage systems Task 15 - Installs and maintains transformers  C - INSTALLS AND MAINTAINS WIRING SYSTEMS  Task 16 - Installs and maintains raceways, cables, conductors and enclosures Task 18 - Installs and maintains branch circuitry and devices Task 18 - Installs and maintains provential and air-conditioning (HVAC) electrical components Task 19 - Installs and maintains exit and emergency lighting systems Task 19 - Installs and maintains exit and emergency lighting systems Task 22 - Installs and maintains exit and emergency lighting systems Task 23 - Installs and maintains exit and emergency lighting systems Task 24 - Installs and maintains motor starters and control devices Task 24 - Installs and maintains motor starters and control devices Task 24 - Installs and maintains motor starters and control devices Task 25 - Installs and maintains motors  Task 26 - Installs and maintains signalling systems Task 27 - Installs and maintains sommunication systems Task 28 - Installs and maintains pinguloutput (I/O) devices Task 29 - Installs and maintains and maintains automated control systems Task 30 - Installs, programs and maintains automated control systems Task 31 - Installs and maintains pneumatic and hydraulic control systems			2
SENERATING, DISTRIBUTION AND SERVICE SYSTEMS  A last 7 - Installs and maintains consumer/supply services and metering equipment Task 8 - Installs and maintains protection devices A task 9 - Installs and maintains power conditioning systems Task 10 - Installs and maintains power conditioning systems Task 11 - Installs and maintains power generating and ground fault detection systems Task 12 - Installs and maintains power generating systems Task 13 - Installs and maintains power generating and storage systems Task 15 - Installs and maintains renewable energy generating and storage systems Task 15 - Installs and maintains renewable energy generating and storage systems Task 15 - Installs and maintains transformers  C - INSTALLS AND MAINTAINS WIRING SYSTEMS  Task 16 - Installs and maintains raceways, cables, conductors and enclosures Task 17 - Installs and maintains branch circuitry and devices Task 18 - Installs and maintains hanch circuitry and devices Task 19 - Installs and maintains electric heating systems and controls Task 19 - Installs and maintains evit and emergency lighting systems Task 21 - Installs and maintains evit and emergency lighting systems Task 22 - Installs and maintains evit and emergency lighting systems Task 22 - Installs and maintains evit and emergency lighting systems Task 23 - Installs and maintains drives Task 24 - Installs and maintains drives Task 25 - Installs and maintains motor starters and control devices Task 24 - Installs and maintains drives Task 25 - Installs and maintains motors  E - INSTALLS AND MAINTAINS SIGNALLING AND COMMUNICATION SYSTEMS Task 28 - Installs and maintains signalling systems Task 29 - Installs and maintains building automation systems Task 29 - Installs and maintains pourdation systems Task 30 - Installs and maintains pourdation systems Task 31 - Installs and maintains pourdation systems Task 31 - Instal		Task 6 - Uses communication and mentoring techniques	0
SERVICE SYSTEMS  Task 8 - Installs and maintains protection devices Task 9 - Installs and maintains protection devices Task 10 - Installs and maintains power conditioning systems Task 11 - Installs and maintains power conditioning systems Task 12 - Installs and maintains power generating systems Task 13 - Installs and maintains power generating systems Task 13 - Installs and maintains renewable energy generating and storage systems Task 14 - Installs and maintains renewable energy generating and storage systems Task 15 - Installs and maintains transformers  C - INSTALLS AND MAINTAINS WIRING SYSTEMS  Task 16 - Installs and maintains transformers  Task 17 - Installs and maintains transformers  Task 18 - Installs and maintains branch circuitry and devices Task 18 - Installs and maintains branch circuitry and devices Task 18 - Installs and maintains branch circuitry and devices Task 18 - Installs and maintains branch circuitry and devices Task 19 - Installs and maintains branch circuitry and devices Task 20 - Installs and maintains electric heating systems and controls Task 20 - Installs and maintains exit and emergency lighting systems Task 19 - Installs and maintains exit and emergency lighting systems Task 21 - Installs and maintains cathodic protection systems  Task 22 - Installs and maintains or starters and control devices Task 23 - Installs and maintains drives Task 24 - Installs and maintains motor starters and control devices Task 25 - Installs and maintains motors  E - INSTALLS AND MAINTAINS Task 26 - Installs and maintains signalling systems Task 27 - Installs and maintains sommunication systems Task 29 - Installs and maintains communication systems Task 29 - Installs and maintains building automation systems Task 29 - Installs and maintains input/output (I/O) devices Task 31 - Installs and maintains pneumatic and hydraulic control systems Task 31 - Installs and maintains pneumatic and hydraulic control systems Task 31 - Installs and maintains pneumatic and hydraulic control systems			25
Task 9 - Installs and maintains low voltage distribution systems Task 10 - Installs and maintains power conditioning systems Task 11 - Installs and maintains power conditioning systems Task 12 - Installs and maintains power generating systems Task 12 - Installs and maintains renewable energy generating and storage systems Task 13 - Installs and maintains renewable energy generating and storage systems Task 14 - Installs and maintains injeh voltage systems Task 15 - Installs and maintains transformers  C - INSTALLS AND MAINTAINS WIRING SYSTEMS  Task 16 - Installs and maintains raceways, cables, conductors and enclosures Task 17 - Installs and maintains branch circuitry and devices Task 18 - Installs and maintains branch circuitry and devices Task 19 - Installs and maintains electric heating systems and controls Task 19 - Installs and maintains exit and emergency lighting systems Task 20 - Installs and maintains exit and emergency lighting systems Task 21 - Installs and maintains cathodic protection systems  Task 22 - Installs and maintains motor starters and control devices Task 23 - Installs and maintains drives Task 24 - Installs and maintains motor starters and control devices Task 24 - Installs and maintains motor starters and control devices Task 24 - Installs and maintains motor starters and control devices Task 25 - Installs and maintains motors starters and control devices Task 24 - Installs and maintains motors  F - INSTALLS AND MAINTAINS Task 26 - Installs and maintains signalling systems Task 27 - Installs and maintains sommunication systems  Task 28 - Installs and maintains building automation systems Task 29 - Installs and maintains input/output (I/O) devices Task 31 - Installs and maintains pneumatic and hydraulic control systems  4			3
Task 10 - Installs and maintains power conditioning systems Task 11 - Installs and maintains bonding, grounding and ground fault detection systems Task 12 - Installs and maintains power generating systems 2 Task 13 - Installs and maintains renewable energy generating and storage systems 2 Task 14 - Installs and maintains high voltage systems 2 Task 15 - Installs and maintains transformers  C - INSTALLS AND MAINTAINS WIRING SYSTEMS  Task 16 - Installs and maintains raceways, cables, conductors and enclosures Task 17 - Installs and maintains branch circuitry and devices Task 18 - Installs and maintains branch circuitry and devices Task 19 - Installs and maintains electric heating systems and controls Task 20 - Installs and maintains electric heating systems and controls Task 21 - Installs and maintains exit and emergency lighting systems Task 22 - Installs and maintains cathodic protection systems  D - INSTALLS AND MAINTAINS ROTATING AND NON-ROTATING EQUIPMENT AND CONTROL Task 22 - Installs and maintains motor starters and control devices Task 24 - Installs and maintains orives Task 25 - Installs and maintains motors  F - INSTALLS AND MAINTAINS SIGNALLING AND COMMUNICATION SYSTEMS  Task 26 - Installs and maintains signalling systems Task 27 - Installs and maintains sommunication systems Task 28 - Installs and maintains building automation systems Task 29 - Installs and maintains building automation systems Task 30 - Installs, programs and maintains automated control systems Task 31 - Installs, programs and maintains automated control systems Task 31 - Installs and maintains pneumatic and hydraulic control systems Task 31 - Installs and maintains pneumatic and hydraulic control systems Task 31 - Installs and maintains pneumatic and hydraulic control systems	SERVICE SYSTEMS		4
Task 11 - Installs and maintains bonding, grounding and ground fault detection systems Task 12 - Installs and maintains power generating systems 2 Task 13 - Installs and maintains renewable energy generating and storage systems 2 Task 14 - Installs and maintains renewable energy generating and storage systems 2 Task 15 - Installs and maintains transformers 3 Task 15 - Installs and maintains transformers 3 Task 16 - Installs and maintains raceways, cables, conductors and enclosures Task 17 - Installs and maintains branch circuitry and devices Task 18 - Installs and maintains branch circuitry and devices Task 19 - Installs and maintains electric heating systems and controls Task 20 - Installs and maintains electric heating systems and controls Task 21 - Installs and maintains exit and emergency lighting systems 1 Task 22 - Installs and maintains cathodic protection systems 1 Task 22 - Installs and maintains drives Task 24 - Installs and maintains drives Task 24 - Installs and maintains on-rotating equipment and associated controls Task 25 - Installs and maintains motors  E - INSTALLS AND MAINTAINS SIGNALLING AND COMMUNICATION SYSTEMS Task 26 - Installs and maintains signalling systems Task 27 - Installs and maintains sommunication systems Task 28 - Installs and maintains building automation systems Task 28 - Installs and maintains building automation systems Task 29 - Installs and maintains building automation systems Task 29 - Installs and maintains building automation systems Task 30 - Installs, programs and maintains automated control systems Task 31 - Installs, programs and maintains automated control systems Task 31 - Installs, programs and maintains automated control systems Task 31 - Installs and maintains pneumatic and hydraulic control systems			3
Task 12 - Installs and maintains power generating systems Task 13 - Installs and maintains renewable energy generating and storage systems Task 14 - Installs and maintains transformers  C - INSTALLS AND MAINTAINS WIRING SYSTEMS  Task 16 - Installs and maintains raceways, cables, conductors and enclosures Task 17 - Installs and maintains branch circuitry and devices Task 18 - Installs and maintains heating, ventilation and air-conditioning (HVAC) electrical components Task 19 - Installs and maintains electric heating systems and controls Task 20 - Installs and maintains exit and emergency lighting systems Task 21 - Installs and maintains exit and emergency lighting systems Task 21 - Installs and maintains exit and emergency lighting systems Task 22 - Installs and maintains motor starters and control devices Task 23 - Installs and maintains motor starters and control devices Task 24 - Installs and maintains on-rotating equipment and associated controls Task 25 - Installs and maintains motors  E - INSTALLS AND MAINTAINS SIGNALLING AND COMMUNICATION SYSTEMS Task 26 - Installs and maintains signalling systems Task 27 - Installs and maintains communication systems Task 28 - Installs and maintains communication systems Task 28 - Installs and maintains bidling automation systems Task 29 - Installs and maintains input/output (I/O) devices Task 30 - Installs, programs and maintains automated control systems Task 31 - Installs and maintains pnoumatic and hydraulic control systems Task 31 - Installs and maintains pnoumatic and hydraulic control systems			2
Task 13 - Installs and maintains renewable energy generating and storage systems Task 14 - Installs and maintains high voltage systems Task 15 - Installs and maintains transformers  C - INSTALLS AND MAINTAINS WIRING SYSTEMS  Task 16 - Installs and maintains raceways, cables, conductors and enclosures Task 17 - Installs and maintains branch circuitry and devices Task 18 - Installs and maintains heating, ventilation and air-conditioning (HVAC) electrical components Task 19 - Installs and maintains exit and emergency lighting systems 2 task 21 - Installs and maintains exit and emergency lighting systems 2 task 21 - Installs and maintains motor starters and control devices Task 23 - Installs and maintains drives Task 24 - Installs and maintains on-rotating equipment and associated controls Task 25 - Installs and maintains motors  E - INSTALLS AND MAINTAINS SIGNALLING AND COMMUNICATION SYSTEMS  Task 26 - Installs and maintains signalling systems Task 27 - Installs and maintains someons  Task 28 - Installs and maintains on-rotating equipment and associated controls Task 28 - Installs and maintains signalling systems Task 28 - Installs and maintains systems Task 28 - Installs and maintains systems Task 29 - Installs and maintains on-rotating systems Task 29 - Installs and maintains on-munication systems Task 29 - Installs and maintains input/output (I/O) devices Task 30 - Installs, programs and maintains automated control systems Task 30 - Installs, programs and maintains automated control systems Task 31 - Installs and maintains pneumatic and hydraulic control systems 4			4
Task 14 - Installs and maintains high voltage systems Task 15 - Installs and maintains transformers  1 Task 15 - Installs and maintains transformers  1 Task 16 - Installs and maintains raceways, cables, conductors and enclosures Task 17 - Installs and maintains branch circuitry and devices Task 18 - Installs and maintains heating, ventilation and air-conditioning (HVAC) electrical components Task 19 - Installs and maintains electric heating systems and controls Task 20 - Installs and maintains exit and emergency lighting systems Task 21 - Installs and maintains cathodic protection systems  1 Task 22 - Installs and maintains motor starters and control devices EQUIPMENT AND CONTROL SYSTEMS  1 Task 24 - Installs and maintains motor starters and control devices Task 24 - Installs and maintains motors  1 Task 25 - Installs and maintains motors  2 Task 26 - Installs and maintains motors  2 Task 27 - Installs and maintains signalling systems Task 27 - Installs and maintains signalling systems Task 27 - Installs and maintains building automation systems  3 Task 28 - Installs and maintains building automation systems Task 29 - Installs and maintains input/output (I/O) devices Task 29 - Installs and maintains and maintains automated control systems Task 29 - Installs and maintains input/output (I/O) devices Task 30 - Installs and maintains pneumatic and hydraulic control systems Task 31 - Installs and maintains pneumatic and hydraulic control systems			2
Task 15 - Installs and maintains transformers			2
C - INSTALLS AND MAINTAINS WIRING SYSTEMS  Task 16 - Installs and maintains raceways, cables, conductors and enclosures Task 17 - Installs and maintains branch circuitry and devices Task 18 - Installs and maintains heating, ventilation and air-conditioning (HVAC) electrical components Task 19 - Installs and maintains electric heating systems and controls Task 20 - Installs and maintains exit and emergency lighting systems Task 21 - Installs and maintains cathodic protection systems  1  D - INSTALLS AND MAINTAINS ROTATING AND NON-ROTATING EQUIPMENT AND CONTROL SYSTEMS  Task 22 - Installs and maintains motor starters and control devices Task 23 - Installs and maintains drives Task 24 - Installs and maintains drives Task 25 - Installs and maintains mon-rotating equipment and associated controls Task 25 - Installs and maintains motors  E - INSTALLS AND MAINTAINS SIGNALLING AND COMMUNICATION SYSTEMS  Task 26 - Installs and maintains signalling systems Task 27 - Installs and maintains building automation systems Task 29 - Installs and maintains input/output (I/O) devices Task 30 - Installs, programs and maintains automated control systems Task 31 - Installs and maintains pneumatic and hydraulic control systems Task 31 - Installs and maintains pneumatic and hydraulic control systems			2
WIRING SYSTEMS  Task 16 - Installs and maintains raceways, cables, conductors and enclosures Task 17 - Installs and maintains branch circuitry and devices Task 18 - Installs and maintains heating, ventilation and air-conditioning (HVAC) electrical components Task 19 - Installs and maintains electric heating systems and controls Task 20 - Installs and maintains exit and emergency lighting systems Task 21 - Installs and maintains cathodic protection systems  1  D - INSTALLS AND MAINTAINS ROTATING AND NON-ROTATING EQUIPMENT AND CONTROL SYSTEMS  Task 22 - Installs and maintains motor starters and control devices Task 23 - Installs and maintains drives Task 24 - Installs and maintains non-rotating equipment and associated controls Task 25 - Installs and maintains motors  E - INSTALLS AND MAINTAINS SIGNALLING AND COMMUNICATION SYSTEMS  Task 26 - Installs and maintains signalling systems Task 27 - Installs and maintains communication systems Task 28 - Installs and maintains building automation systems Task 29 - Installs and maintains input/output (I/O) devices Task 30 - Installs, programs and maintains automated control systems Task 31 - Installs and maintains pneumatic and hydraulic control systems 4		Task 15 - Installs and maintains transformers	3
Task 17 - Installs and maintains branch circuitry and devices Task 18 - Installs and maintains heating, ventilation and air-conditioning (HVAC) electrical components Task 19 - Installs and maintains electric heating systems and controls Task 20 - Installs and maintains exit and emergency lighting systems Task 21 - Installs and maintains cathodic protection systems  Task 21 - Installs and maintains cathodic protection systems  Task 22 - Installs and maintains motor starters and control devices Task 23 - Installs and maintains drives Task 24 - Installs and maintains motor starters and control devices Task 25 - Installs and maintains motors  E - INSTALLS AND MAINTAINS SIGNALLING AND COMMUNICATION SYSTEMS  Task 26 - Installs and maintains signalling systems Task 27 - Installs and maintains communication systems Task 28 - Installs and maintains building automation systems Task 29 - Installs and maintains input/output (I/O) devices Task 30 - Installs, programs and maintains automated control systems Task 31 - Installs and maintains pneumatic and hydraulic control systems			19
Task 18 - Installs and maintains heating, ventilation and air-conditioning (HVAC) electrical components Task 19 - Installs and maintains electric heating systems and controls Task 20 - Installs and maintains exit and emergency lighting systems Task 21 - Installs and maintains cathodic protection systems  D - INSTALLS AND MAINTAINS ROTATING AND NON-ROTATING EQUIPMENT AND CONTROL Task 22 - Installs and maintains motor starters and control devices Task 23 - Installs and maintains drives Task 24 - Installs and maintains drives Task 25 - Installs and maintains motors  E - INSTALLS AND MAINTAINS SIGNALLING AND COMMUNICATION SIGNALLING AND COMMUNICATION Task 26 - Installs and maintains signalling systems Task 27 - Installs and maintains communication systems Task 28 - Installs and maintains building automation systems Task 29 - Installs and maintains input/output (I/O) devices Task 30 - Installs, programs and maintains automated control systems Task 31 - Installs and maintains pneumatic and hydraulic control systems	WIRING SYSTEMS		6
components Task 19 - Installs and maintains electric heating systems and controls Task 20 - Installs and maintains exit and emergency lighting systems Task 21 - Installs and maintains exit and emergency lighting systems Task 21 - Installs and maintains cathodic protection systems  1  D - INSTALLS AND MAINTAINS ROTATING AND NON-ROTATING EQUIPMENT AND CONTROL Task 22 - Installs and maintains motor starters and control devices Task 23 - Installs and maintains drives Task 24 - Installs and maintains non-rotating equipment and associated controls Task 25 - Installs and maintains motors  E - INSTALLS AND MAINTAINS SIGNALLING AND COMMUNICATION SYSTEMS Task 26 - Installs and maintains signalling systems Task 27 - Installs and maintains communication systems Task 28 - Installs and maintains building automation systems Task 29 - Installs and maintains input/output (I/O) devices Task 30 - Installs, programs and maintains automated control systems Task 31 - Installs and maintains pneumatic and hydraulic control systems			5
Task 19 - Installs and maintains electric heating systems and controls Task 20 - Installs and maintains exit and emergency lighting systems Task 21 - Installs and maintains cathodic protection systems  D - INSTALLS AND MAINTAINS ROTATING AND NON-ROTATING EQUIPMENT AND CONTROL SYSTEMS Task 22 - Installs and maintains motor starters and control devices Task 23 - Installs and maintains drives Task 24 - Installs and maintains non-rotating equipment and associated controls Task 25 - Installs and maintains motors  E - INSTALLS AND MAINTAINS SIGNALLING AND COMMUNICATION SYSTEMS Task 26 - Installs and maintains signalling systems Task 27 - Installs and maintains communication systems Task 28 - Installs and maintains building automation systems Task 29 - Installs and maintains input/output (I/O) devices Task 30 - Installs, programs and maintains automated control systems Task 31 - Installs and maintains pneumatic and hydraulic control systems			2
