

## Training Provider Record Request: 59-2021

### Sponsors for all Bricklayer and Tilesetter Apprentices

#### Notes

A sponsor is a person or organization that registers an account with the ITA and ensures the apprentice hired receives training and related practical experience under direction of a qualified individual (certified tradesperson, individual who has been issued sign-off authority, or other as described in the Program Profile) in the tasks, activities and functions that are carried out in that occupation. The sponsor recommends for certification an apprentice who has met the established standards for the industry training program.

A sponsor account can be registered by an employer, an association of employers, a union, a training institution, or an individual.

A single sponsor can register for multiple sponsor accounts because accounts are location specific.

A single sponsor can have apprentices in more than one trade
