

Issued: February 24, 2015

To: ITA Training Providers

Subject: **Floor Covering Installer Assessment Guidelines**

RE: **2015-004**

Effective Date September 30, 2014

Summary The revised Assessment Guidelines provided in this notice are also available in the Program Outline. As per the guidelines, the in-school percentage score for Floor Covering Installer Levels 1, 2 & 3 is derived from a combination of theory and practical assessments within each training topic.

Rationale Assessment Guidelines are provided as a tool to help instructors align in-school training to the program competencies to which apprentices are assessed. The guidelines feature *Competencies and Weightings* tables to calculate the final in-school percentage score for each apprentice.

ITA Certificate of Qualification or Interprovincial Red Seal Exam (Final Level) Qualification exam results are **NOT** blended with in-school technical training results in the final Level of the program. ITA Certificate of Qualification exams and Interprovincial Red Seal exams remain stand-alone program completion requirements.

In order to achieve certification, **Floor Covering Installer** apprentices are required to write the **Interprovincial (Red Seal)** exam after their final level of technical training.

To be eligible to write the certification exam, apprentices must have passed all levels of in-school technical training. Qualification exams are requested by training providers via the usual ITA procedure

A score of 70% or greater is required for a pass on certification exams.

ITA administers and invigilates the qualification exams and records exam results in ITA Direct Access.

Calculating Final Percentage Scores For ITA Level Exams

ITA administers the SLE, records the mark in Direct Access, and reports it to the school. The apprentice is not notified when the SLE mark is entered.

Training providers weight and blend the in-school (80%) and SLE (20%) marks to produce a final mark for the Level. That final, blended mark is reported to ITA by the school and recorded in Direct Access

Direct Access reports the school's final mark for the Level to the apprentice as a single percentage score

Once the final Level mark is entered in Direct Access, the system performs a reverse calculation using the SLE mark to determine the in-school mark. All three marks are stored in the apprentice's record, but only the final Level mark is reported on the ITA transcript.

Scheduling Exams

Exams are to be requested by training providers via the usual ITA procedure. Training providers to complete an ITA Exam Request Form six weeks prior to the scheduled exam date. ITA will invigilate these exams unless other arrangements are organized between ITA's Exam Department and the training provider.
