

GEOTECHNICAL/ENVIRONMENTAL DRILLER

Occupation Description

Geotechnical/Environmental Drillers (Geo/Enviro Driller) operate various types of mobile soil and rock drilling equipment for the purpose of gathering site characterization information and data. Geo/Enviro drillers typically work together on site with an engineer or technologist to achieve a greater understanding of the stratigraphy or hydrogeological conditions present by collecting soil or water samples, performing various types of probe or in-situ tests, or by setting various types of installations for either geotechnical or environmental monitoring. Geo/Enviro drillers must have both training and experience with various drilling, sampling and testing techniques in order to conduct a safe and efficient site investigation program, and to ensure the maintenance of drilling and support equipment. Geo/Enviro drillers must also have a competent understanding of provincial hole closure regulations to ensure safety to both the environment and public.

For detailed information on the scope of knowledge and skills taught and assessed in this program, refer to the Program Outline, available on the SkilledTradesBC website.

Pathways to Certification

In B.C., an individual can become certified as a Geotechnical/Environmental Driller by challenging the certification. There is no Apprenticeship pathway for this trade. Apprenticeship programs are for individuals who have an employer to sponsor them and challenge programs are for individuals who have extensive experience working in the occupation and wish to challenge the certification.

Recommended Education

The following education is **recommended** for challengers entering this occupation. These are not prerequisites, but rather a desired level of skill or knowledge that will contribute to success in the industry.

- Grade 10 or equivalent including English 10, Math 10, and Science 10.
- Preferred level of education: Grade 12.

SkilledTradesBC Registration

Individuals who wish to challenge the Geotechnical/Environmental Driller certification must complete the Geotechnical/Environmental Driller Challenge Application and submit it to SkilledTradesBC. Challenge applications are assessed for proof of workplace hours and scope of experience prior to acceptance of the individual into the Challenge pathway.

Apprenticeship Pathway

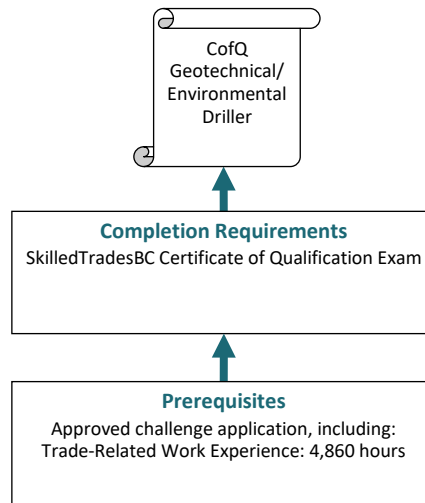

There is currently no apprenticeship pathway for the Geotechnical Environmental Driller program.

Challenge Pathway

This graphic provides an overview of the Geotechnical/Environmental Driller challenge pathway.

Geotechnical/Environmental Driller

C of Q = Certificate of Qualification

CREDIT FOR PRIOR LEARNING

Challenge Program Standards

Credentials Awarded

Geotechnical/Environmental Driller – Certificate of Qualification

SkilledTradesBC

Registration Prerequisites

An approved Challenge Application, which includes:

- 4,860 documented hours of directly related experience working in the occupation

Credit for Prior Learning

Individuals who hold the credentials listed below are considered to have met, or partially met, the prerequisites for challenging this program:

Credential	Credit(s) Granted
Water Well Driller – Certificate of Qualification	▪ Work experience: 3,610 hours
Geoexchange Driller – Certificate of Qualification	▪ Work experience: 3,240 hours
Geotechnical/Environmental Driller – Certificate of Qualification	▪ Work experience: 510 hours

Completion Requirements

Certification as a Geotechnical/Environmental Driller is awarded upon successful completion of:

Requirement	Level of Achievement Required
Geotechnical/Environmental Driller – SkilledTradesBC Certificate of Qualification Exam	▪ Minimum 70%
