

REFRIGERATION AND AIR CONDITIONING MECHANIC

Occupation Description

Refrigeration and Air Conditioning Mechanics install, maintain and service residential, commercial, industrial and institutional heating, ventilation, air conditioning and refrigeration units and systems. They also connect to air delivery systems, install and service hydronic and secondary refrigerant systems and associated controls. Their duties include laying out reference points for installation, assembling and installing components, installing wiring to connect components to an electric power supply and calibrating related controls. They also measure, cut, bend, thread and connect pipes to functional components and utilities. They maintain and service systems by inspecting and testing components, brazing and soldering parts to repair defective joints, adjusting and replacing worn or defective components and reassembling repaired components and systems. As part of service and commissioning, refrigeration and air conditioning mechanics start-up, test, charge, adjust, calibrate, balance, measure, verify, maintain and document systems.

Additional certification may be required in some jurisdictions to allow Refrigeration and Air Conditioning Mechanics to plan and perform the work described above.

For detailed information on the scope of knowledge and skills taught and assessed in this program refer to the Program Outline, available on the SkilledTradesBC website.

Pathways to Certification

In BC, an individual can become certified as a Refrigeration and Air Conditioning Mechanic by completing the Refrigeration and Air Conditioning Mechanic program or by challenging the certification. Apprenticeship programs are for individuals who have an employer to sponsor them and challenge programs are for individuals who have extensive experience working in the occupation and wish to challenge the certification.

Youth can begin an apprenticeship in high school through the Youth Train in Trades or Youth Work in Trades programs. The Youth Work in Trades program is available for any trade if an employer is willing to sponsor the student. Trades offered through the Youth Train in Trades vary by region; contact your local school district to find out which technical training programs are being offered through the Youth Train in Trades program in your region.

Foundation programs, where available, provide adults and youth who do not have work experience or employer sponsorship with an opportunity to gain the knowledge and skills needed to enter the occupation. Individuals who wish to enroll in a Foundation program must register directly with the training provider.

Recommended Education

The following education is recommended for apprentices entering this occupation. These are not prerequisites, but rather a desired level of skill or knowledge that will contribute to success in the industry.

- Grade 12 diploma including:
 - English 12
 - Math 11 (Applications of Math 11 or Principles of Math 11), and Physics 11

**SkilledTradesBC Registration**

Individuals who wish to begin an apprenticeship in this program must register with SkilledTradesBC along with their sponsor. Application forms for all programs are available from the SkilledTradesBC website. Online registration is also available for most programs through the SkilledTradesBC website.

Those who wish to challenge the Refrigeration and Air Conditioning Mechanic certification must complete the Refrigeration and Air Conditioning Mechanic Challenge Application and submit it to SkilledTradesBC. Challenge applications are assessed for proof of workplace hours and scope of experience prior to acceptance of the individual into the Challenge pathway.

Skilled Trades Certification

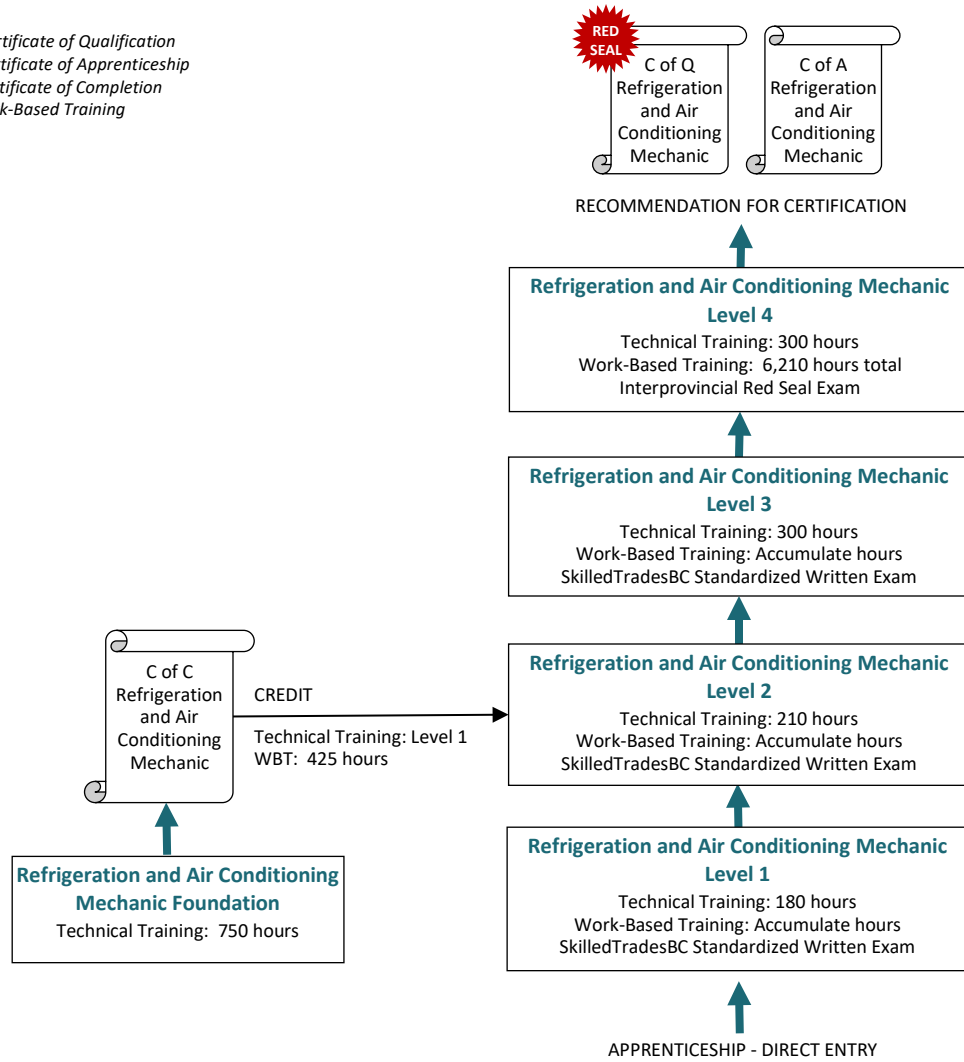

Trade workers in a trade designated as Skilled Trades Certification (STC) are required to hold certification in the trade, be registered as an apprentice, or have an approved Temporary Authorization. More information can be found at www.skilledtradesbc.ca

Apprenticeship Pathway

This graphic provides an overview of the Refrigeration and Air Conditioning Mechanic apprenticeship pathway.

*C of Q = Certificate of Qualification
C of A = Certificate of Apprenticeship
C of C = Certificate of Completion
WBT = Work-Based Training*

CROSS-PROGRAM CREDITS

Individuals who hold the credentials listed below are entitled to receive partial credit toward the completion requirements of this program

Technical Training: None
 Work-Based Training: 1,200 hours

Technical Training: None
 Work-Based Training: 1,800 hours

Technical Training: None
 Work-Based Training: 900 hours

Apprenticeship Program Standards

Credentials Awarded

- Refrigeration and Air Conditioning Mechanic – Certificate of Qualification with Interprovincial Red Seal endorsement
- Refrigeration and Air Conditioning Mechanic – Certificate of Apprenticeship

**SkilledTradesBC
Registration Prerequisites**

- Agreement signed by the employer to sponsor the apprentice

Completion Requirements

Certification as a Refrigeration and Air Conditioning Mechanic is awarded upon successful completion of:

Requirement

Level of Achievement Required

Technical Training

Minimum 70% in each level of technical training:

- Level 1: 180 hours and SkilledTradesBC standardized written exam
- Level 2: 210 hours and SkilledTradesBC standardized written exam
- Level 3: 300 hours and SkilledTradesBC standardized written exam
- Level 4: 300 hours

Interprovincial Red Seal Exam

- Minimum 70%

Work-Based Training

- 6,210 hours

Recommendation for Certification

- Recommendation for certification signed by the Sponsor and an individual holding credentials eligible for sign-off authority

Program Duration

Duration varies depending on how training is delivered, but the program generally takes 4 years to complete.

The technical training requirement is typically met through block-release training (full-time, at school) delivered by a SkilledTradesBC-approved training provider. It can also be met through approved alternative training models (e.g., distance education, online, part-time) and/or level challenge where these options are available.

Sign-off Authority

Credentials eligible to sign-off on the Recommendation for Certification:

- Refrigeration and Air Conditioning Mechanic – Certificate of Qualification
- Refrigeration and Air Conditioning Mechanic – Interprovincial Red Seal endorsement
- Uncertified Experienced Worker with a valid and active Temporary Authorization issued from SkilledTradesBC

Challenging a Level

The following levels of technical training can be challenged for advanced placement in this program. Note that there are eligibility requirements to challenge a level as this program falls under Skilled Trades Certification.

Level

- Level 1
- Level 2
- Level 3

Apprenticeship Program Standards

Skilled Trades Certification Supervision Ratio The ratio of apprentice to journeyperson is 2:1. This applies to apprentices in Levels 1, 2 and 3. Apprentices in Level 4 are exempt from the ratio.

A Level 4 apprentice is defined as someone who has:

- Successfully completed Technical Training requirements for Levels 1, 2, and 3.
- Recorded at least 4,658 hours of Work Based Training.

Cross-Program Credits Individuals who hold the credentials listed below are entitled to receive partial credit toward the completion requirements of this program

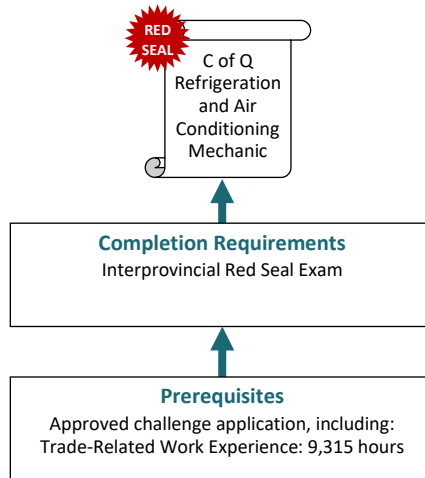

Credential	Credit(s) Granted
Technical Safety BC - Certificate of Qualification, Gasfitter - Class B	<ul style="list-style-type: none"> ▪ Work-Based Training: 1,200 hours
Construction Electrician - Certificate of Qualification	<ul style="list-style-type: none"> ▪ Work-Based Training: 900 hours
Industrial Electrician - Certificate of Qualification	<ul style="list-style-type: none"> ▪ Work-Based Training: 1,800 hours

Challenge Pathway

This graphic provides an overview of the Refrigeration and Air Conditioning Mechanic challenge pathway.

C of Q = Certificate of Qualification

CREDIT FOR PRIOR LEARNING

Individuals who hold the credentials listed below are entitled to receive partial credit toward the completion requirements of this program

Military certificate in Refrigeration and Mechanical Technician MT #301 / MT #641, QL5 or higher	Work Experience: 9,315 hours
--	------------------------------

Challenge Program Standards

Credentials Awarded

Refrigeration and Air Conditioning Mechanic – Certificate of Qualification with Interprovincial Red Seal endorsement

SkilledTradesBC

Registration Prerequisites

An approved Challenge Application, which includes:

- 9,315 documented hours of directly related experience working in the occupation

Credit for Prior Learning

Individuals who hold the credentials listed below are considered to have met the prerequisites for challenging this program:

Credential

Credit(s) Granted

Military certificate in Refrigeration and Mechanical Technician MT #301 / MT #641, QL5 or higher

- Work Experience: 9,315 hours
- Approved Challenge Application

Completion Requirements

Certification as a Refrigeration and Air Conditioning Mechanic is awarded upon successful completion of:

Requirement

Level of Achievement Required

Interprovincial Red Seal Exam

- Minimum 70%

Foundation Program

Refer to the Apprenticeship pathway diagram for this program to see how the Refrigeration Mechanic Foundation program leads to apprenticeship in this trade.

Foundation Program Standards

Credentials Awarded Refrigeration and Air Conditioning Mechanic – Certificate of Completion

Enrollment Prerequisites Contact training provider. Prerequisites vary between training institutions

Completion Requirements A Certificate of Completion in this program is awarded upon successful completion of:

Requirement	Level of Achievement Required
Technical Training	<ul style="list-style-type: none"> ▪ Minimum 70%

Program Duration Duration varies depending on how training is delivered, but program generally takes 750 hours to complete.

Credit toward Apprenticeship Individuals who complete the Refrigeration and Air Conditioning Mechanic Foundation program will receive the following credit toward completion of the Refrigeration and Air Conditioning Mechanic apprenticeship program:

- Technical Training: Level 1
- Work-Based Training: 425 hours
